Material Specifications

Finishes

- Longboard Products are available in a wide range of woodgrains and solid colors
- Custom solid colors are available upon request.

All Longboard Products are produced 1" (25mm) oversized, as one end is drilled for the coating process, and both ends have 1/2" (12mm) of masking tape (woodgrains only) which must be cut off for best results.

Material Ordering & Delivery

•	Packaging:	Dauntless Beams are sold in sizes of 1 5/8" x 4" & 6" x 24' lengths End caps are sold by the box: 20 caps/bx.
•	Shipping:	Lead time is 3-6 business days* + shipping (*subject to change), delivered on 24' (7.3m) long skids weighing up to 2000 lbs. A mechanical lift with forks is required on site to receive the order.
•	QC:	Always inspect the delivery for damage and contact LB ASAP if there are any issues: info@longboardproducts.com or 1-800-604-0343 and include your PO# and any pictures if possible. Mark the delivery receipt as "damaged" and accept the delivery as-is. Longboard is not responsible for the installation of blemished or damaged material.

Storage & Handling

Be sure to store the material flat, keep it dry, safe & secure and remain in unopened cartons until ready to be installed.

See Appendix for proper handling and care instructions.

Cleaning Recommendations

While Longboard finishes require zero maintenance, we do recommend periodic cleaning to keep the product looking its best. Our finish is tested to withstand corrosion, fading and normal wear, however, neglect and rough conditions could have negative effects on the surface finish. Your Longboard products should be cleaned immediately after installation. See the cleaning guide for our suggestions based on soil level. Basic methods use a combination of moderate water pressure, soft sponge/brush, and a mild detergent.

See Cleaning Guide for full requirements: longboardproducts.com

№ NEVER use aggressive acid or alkaline cleaners on Longboard finishes. Do not use cleaners containing Trisodium Phosphate, Phosphoric Acid, Hydrochloric Acid, Hydrofluoric Acid, Fluorides, or any other compound that is known to react with metal.

Always follow the product instructions for dilution. Cleaning the surface with a cleanser that is not diluted may result in damage to the coating.

Warrantv

Upon substantial completion of the project, register for warranty online here: <u>longboardproducts.com/warranty</u>

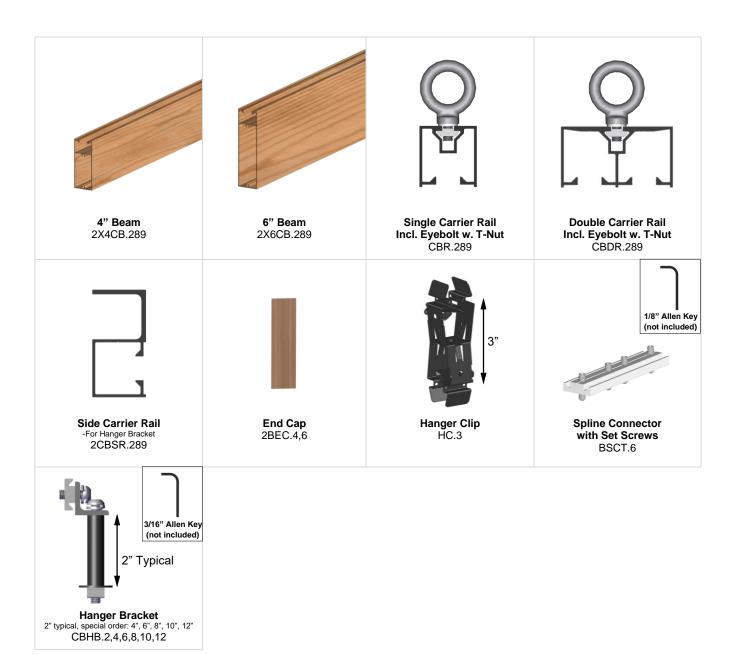

A Registration is required for the warranty to be in effect.

Components

Components (Typical)

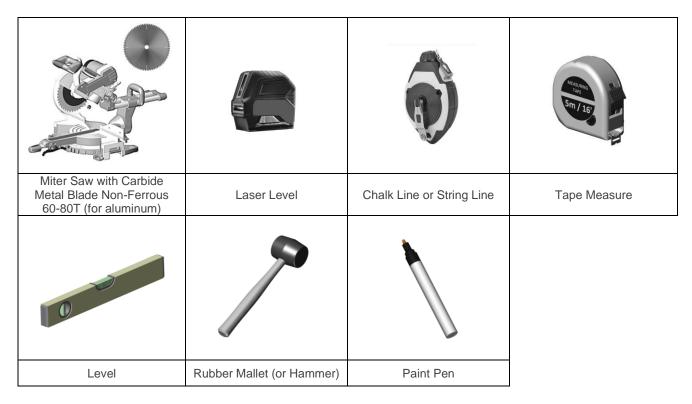

Longboard Dauntless Interior Ceiling System consists of a Beam, End Cap, Hanger, Rail, and Eyebolt. For all LB components go to longboardproducts.com.

Tools/Cutting/Fastening

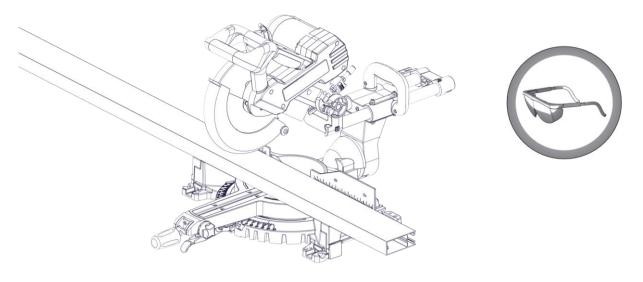

ToolsCommonly used tools for Dauntless install.

Cutting

⚠ Always be sure to wear appropriate PPE: eye & hearing protection.

Cut girts using a Miter/Chop Saw to terminate to accurately measured distances between subsequent girts and area limitations.

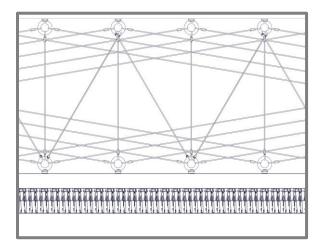

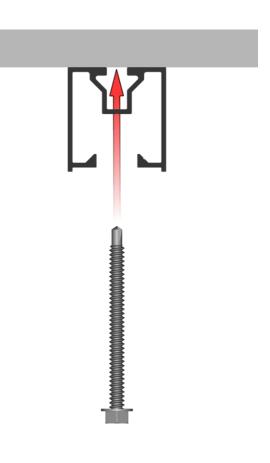

Fastening

Longboard Dauntless system consists of Beams attached to Rails which are hung from a structure above. Using Eyebolts, the Dauntless system can be suspended from the ceiling to the Rail system with wires or threaded rod (supplied by others). The Rails can also be attached directly to the ceiling or structure. The attachment from the Rail or Eyebolts are done by others.

⚠ All fasteners should be compatible with the substrate type. Fasteners should be anchored into a solid secure framing member.

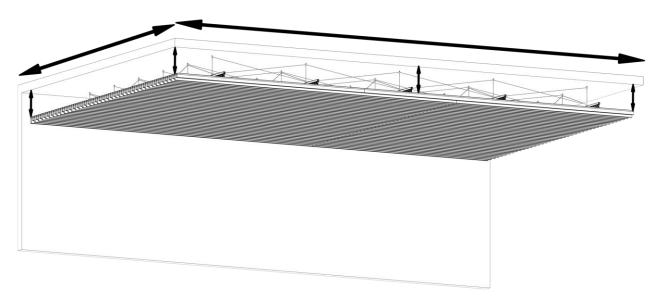

System Install

System layout

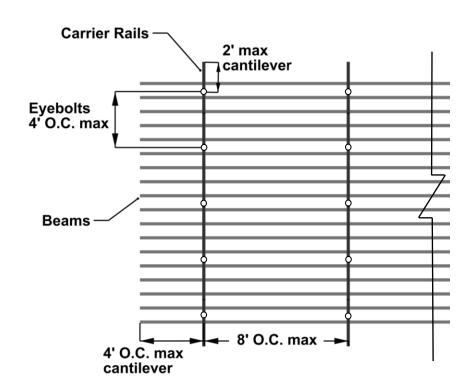

Perimeter area and drop depths

Measure and layout your ceiling system taking into consideration corners, bends and drop depths from ceiling. Make sure to mark and level out the drop depth of the Rails so they line up with the install of the Dauntless Beams.

Typical layout

- Carrier Rails @ 8' O.C. max spacings (2' max cantilever)
- Eyebolts @ 4' O.C. max spacings
- Hanger Clip placed at desired Beam spacing
- Must use at least two attachment points per Beam and Rail

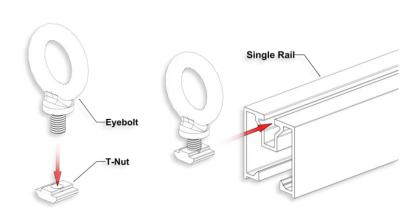

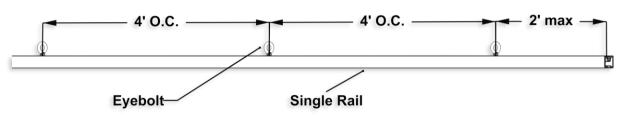

Install Rail system

Step 1 -Eyebolt Install
Measure and cut Rails for the
required area. Measure and install
Eyebolts every 4' O.C. max with a 2'
max cantilever. Slide the Eyebolt
and T-Nut onto each Rail and tighten
the Eyebolt once in position.

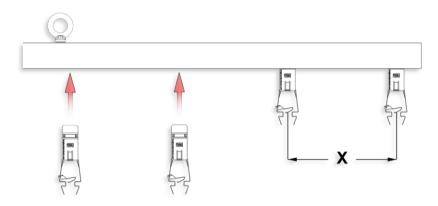

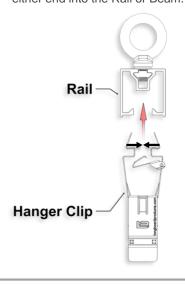

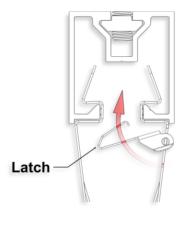

Step 2 -Hanger Clip Install
Measure desired Beam spacings on
the Rail (X) and install Hanger Clips
as shown. The Hanger Clip is
designed with a Latch that when
pressed locks the Hanger Clip into
place. Using thumb, press with
pressure to snap the Latch into
place. See images for details.

⚠ Note: The Hanger Clip is universal so it can be installed either end into the Rail or Beam.

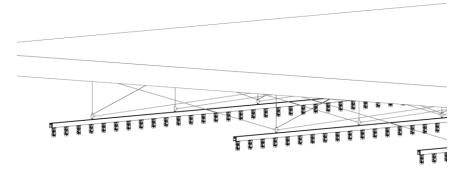

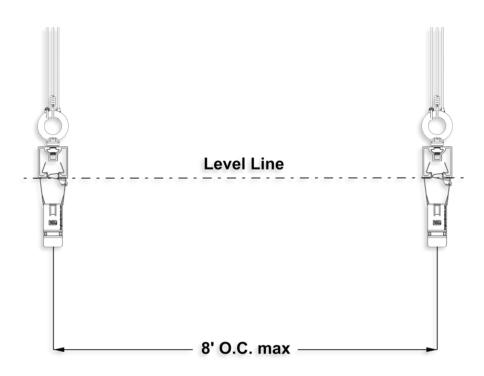

Step 3 -Rail Install Install Rails with Hanger Clips onto ceiling structure with wires or Ready Rod. Make sure to level out the Rails so they are all plumb and straight.

Install Beams

Step 4 -Beam Preparation

Measure and cut Beams for the required area.

Use a Paint Pen on the cut ends and install End Caps. End Caps are friction fit and if needed can be installed with a Rubber Mallet to protect the finish.

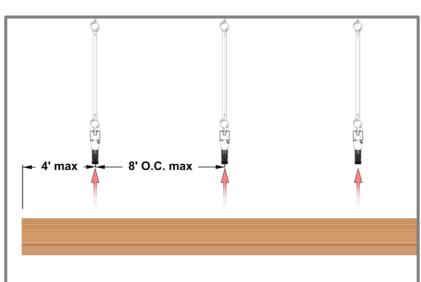

Step 5 -Beam Install

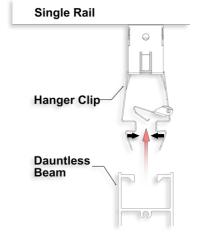

Lift Beams into place onto the Hanger Clips previously installed on the Rails.

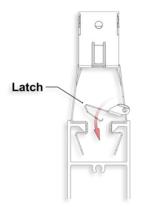

Using the Latch, snap the Beam into place for every hanger Clip along the length. Make sure to check that Beams are level, plumb and straight.

Note: Make sure every Hanger Clip is attached and snapped onto the Beam.

Repeat Steps 4 & 5 for the rest of the Beams.

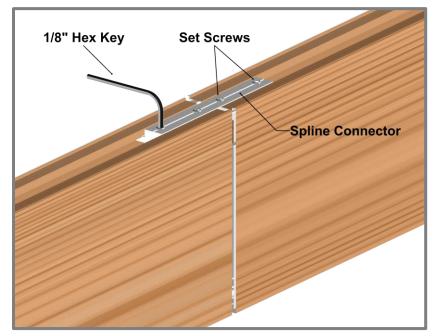

Spline Connectors are used to connect Dauntless Beams together to achieve a seamless look for linear runs greater than 24'.

A 1/8" Hex Key is used (by others) to tighten the Set Screws once in the desired position.

Spline Connector and Set Screws are purchased separately.

Spline Connector with Set Screws

NATIONAL WARRANTY

(Canada & USA only)

15 Year Non-Prorated Powder Coating Finish - 50 Year Non-Prorated Extruded Aluminum Profiles [Limited Warranty]

Warranty granted to (building owner):	Product codes: Product description:	Install contractor
		Project name
		Project address
Longboard Architectural Products Inc. ("Longboard," "The Company") products as identified by the Product Codes		Address 2 Install start date
listed will conform to the standards set out in Clause 1 and Clause 2 of this Warranty, subject to the terms and	Finish:	Date of substantial completion
conditions set out in Clause 3 and 4 of this Warranty.		
This Pinnacle Warranty is only valid for applications vassistance.	vithin Canada and USA. All applications outside of Car	nada and USA are required to contact Longboard fo
Clause 1 Extruded Aluminum Profile(s) with Powder Coat Finish Longboard expressly warrants that its product line is free from manufacturing defects in material or workmanship. 1.1 When product is applied according to Longboard instructions and properly maintained, such product is guaranteed against the following: 1.2 Buckling: The product itself will be free of any buckling that is not	of oil, grease, chalk, oxidized film or other contaminants, corresponding values shall be measured on the control panel. 2.6 Adhesion: Adhesion of product finish when initially applied to test panels and measured by reference to AAMA 2604-02 Clause 7.4.2 will show no removal of the film. Clause 3 3.1 Warranty Terms and Conditions: The "Warranty Period" for the warranties in Clause 1 shall mean	The claimant must provide proof of coverage. Claims can be mad by writing to Longboard at the Product Performanc Department. After receiving such notice, The Company mus be given a reasonable opportunity to inspect and verify the claim Longboard exclusive liability under this warranty, or otherwise will be limited to refinishing and/or repairing, at The Company sole discretion, the defective powder coated product. The warranty on any refinished, repaired or replaced coated meta supplied hereunder shall be for the remainder of the warrant period applicable to the originally coated metal. All warrants
associated with the substrate and/or structure to which the Longboard system is attached. For the purpose of this warranty, buckling shall be defined as warping of the product(s) exceeding one sixteenth of an inch out of plane per linear foot. 1.3 Corrosion: When installed in normal atmospheric conditions according to Longboard instructions and properly maintained, such product is further guaranteed against rusting and corroding. Subject to the limitations set out in Clause 3 and 4. 1.4 What we will do: If, during the fifteen (15) year Limited Warranty Period on the powder coating finish, the Product is defective in material or workmanship, Longboard will, in its sole discretion, either repair or replace the defective portion of the Product. 1.5 What we will do: If, during the fifteen (50) year Limited Warranty Period on the extruded aluminum profiles, the Product is defective in material or workmanship, Longboard will, in its sole discretion, either repair or replace the defective portion of the Product. 1.6 After the 15th year, this Limited Warranty on the powder coated finish will expire and shall no longer be applicable. 1.7 After the 50th year, this Limited Warranty on the aluminum extruded profile(s) will expire and shall no longer be applicable. 1.8 Longboard replacement of the defective Product or reimbursement of this Limited Warranty is the exclusive remedy for the Covered Person for any defect in materials or workmanship. The Company will pay for all reasonable costs including material and labor as it relates to the repair and/or replacement of the defective Product.	the respective number of years or for as long as the Covered Person commencing on the date of substantial completion named above shall live and own the property on which the material was originally installed. 3.3 Registration of the product is required within ninety (90) days from substantial completion for the warranty to be in effect. This warranty is valid for the original owner and one other subsequent owner of the structure where the product(s) have been installed. 3.4 Normal atmospheric conditions exclude corrosive or aggressive atmospheres such as those contaminated with chemical furnes or other corrosive elements. The product finish is not meant for marine use on boats, ships or offshore platforms. 3.5 The product finish warrantles as outlined in Clause 2 shall include coverage of the finish as it relates to the impact effects from hall and woodpecker birds. 3.6 Under no circumstance shall Longboard's liability under this limited warranty exceed 2.5 times the total corresponding Longboard material cost (excluding sales tax, labor and installation related costs) as noted on the original purchase invoice and paid by the Buyer for the specific project. Clause 4 4.1 This warranty will not extend or cover: Damages to the coated metal caused by handling, shipping,	work will be performed by a company or contractor selected by Longboard. Color variance between refinished and/or repainted product and original shall not be indicative of a defect. 4.9 This warranty represents the entire agreement between parties in relation to its subject matter and supersedes an previous agreement whether written or oral between the parties in relation to its subject matter. The limited warranties state the entire liability of Longboard with respect to the product covered by them. The Company shall have no liability for an incidental or consequential damages. No person is authorized to make any representation or warranty on behalf of Longboan except as expressly set forth above, and any such statemen shall not be binding on The Company. Except as expressly set forth above, Longboard makes no warranty of any kind express or implied, including, without limitation, any implie warranty of merchantability or fitness for a particular purpose Warranties shall be the duration of the limited warranty, or suc shorter duration as provided under applicable local law. Thes limited warranties give you specific legal rights, and you ma also have other rights which vary from area to area. 4.10 Nothing in this warranty shall be construed as a warranty of the workmanship of any installer or as imposing on Longboard an liability for unsatisfactory performance caused by fault workmanship in installation. 4.11 St's agreed all parties involved that all claims and dispute relating to this agreement that cannot be settled through
Clause 2 Product Finish - AAMA 2604 Performance Specification 2.1 During the first fifteen (15) years of this warranty: 2.2 Checking/Cracking: No visible checking or cracking of the product finish on the building. 2.3 Chalking Resistance: No chalking of the product finish on the building in excess of that represented by No.8 rating based on ASTM D4214. 2.4 Color Retention: No color change of the product finish on the building greater that 5 (five) CIE Lab \(\textit{E}\) Lab \(\textit{E}\) units calculated in accordance with ASTM 2244 Section 6.3. Color change shall be measured on the exposed paint surface which has been cleaned of oil, grease, chalk, oxidized film or other contraminants, corresponding values shall be measured on the control panel. 2.5 Gloss Retention: Coated surface will exhibit gloss retention of a minimum of 30% of the original. Gloss retention shall be	processing and/or installation; or 1.3 Damages to the coated metal caused by scratching or abrading after installation; or 2.4 Damages to the coated metal as a result of standing water in horizontal installations. 2.5 The warranty will not be applicable to damage or failure, which is caused by acts of God, falling objects, external forces, explosions, fire, flots, civil commotion's, acts of war, or other such similar or dissimilar occurrences beyond The Company's control. 2.6 Customer shall make available to The Company the dates of the installation of the coated metal, the maintenance records including details of washing and cleaning procedures in compliance with the cleaning requirements as stated in the Required Maintenance section of this warranty. Customers shall demonstrate that the failure of the coated metal was due to a breach of the warranty stated herein. 2.7 Claims must be made in writing to Longboard within 30 days of the discovery of a problem and authorization obtained prior to beginning any requirements and overk.	negotiation will try in good faith to first settle the dispute by mediation administered by the American Arbitration Association (Construction Industry Mediation Procedures) as a prelude to mandatory binding arbitration. Such binding arbitration is to be conducted and administered by the Construction Industry Arbitration Rules of the American Arbitration Association. Both seller and purchaser agree to shan equally in the costs of both mediation and arbitration and tha such binding arbitration will be the sole and final remedia action. 4.12 Required Maintenance. Depending on the Projec Environment, follow the maintenance schedule as outlined in the Longboard Care & Maintenance Guide. Use a soft sponge o cloth, water and mild detergent, non-abrasive soap with the pH range of 5-9 to clean the powder coated area of dirt, grin and other debris. Pressure washing and the use of harsi detergents or chemicals is not recommended. Include in you maintenance records the following: date, time, specifi products used, name of maintenance person and the
