Finishes

- Longboard Products are available in a wide range of woodgrains and solid colors
- Custom solid colors are available upon request.

All Longboard Products are produced 1" (25mm) oversized, as one end is drilled for the coating process, and both ends have 1/2" (12mm) of masking tape (woodgrains only) which must be cut off for best results.

Material Ordering & Delivery

٠	Packaging:	Dauntless Baffles are sold in sizes of 1 5/8" x 4" & 6" x 24' lengths End caps are sold by the box: 20 caps/bx.
•	Ship/Receiving:	Most Popular Finishes -ready to ship within 1 week Additional Finishes -ready to ship within 14 weeks Delivered on 24' (7.3m) long skids weighing up to 2000 lbs. A mechanical lift with forks is required on site to receive the order.
•	QC:	Always inspect the delivery for damage and contact LB ASAP if there are any issues: <u>info@longboardproducts.com</u> or 1-800-604-0343 and include your PO# and any pictures if possible. Mark the delivery receipt as "damaged" and accept the delivery as-is. Longboard is not responsible for the installation of blemished or damaged material.

Storage & Handling

Be sure to store the material flat, keep it dry, safe & secure and remain in unopened cartons until ready to be installed. See **Appendix for proper handling and care instructions.**

Cleaning Recommendations

- Initial and periodic cleaning for best looking product
- Basic methods use a combination of moderate water pressure, soft sponge/brush and a mild detergent (Safe for your hands, safe for the product)

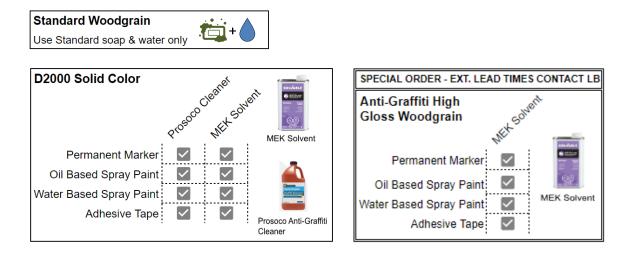

▲ NEVER use aggressive, acid or alkaline cleaners on Longboard finishes. Do not use cleaners containing Trisodium Phosphate, Phosphoric Acid, Hydrochloric Acid, Hydrofluoric Acid, Fluorides, or any other compound that is known to react with metal.

*See Cleaning Guide for full requirements & cleaning schedule: longboardproducts/resources/care-maintenance.com

Warranty

Upon substantial completion of the project, register for warranty online here: <u>longboardproducts.com/warranty</u> \bigwedge Registration is required for the warranty to be in effect.

Graffiti Removal

Note: Cleaning the surface with a cleanser that is not diluted as per instructions may result in damage to the coating.

Components (Typical)

Longboard Dauntless Interior Ceiling System consists of a Baffle, End Cap, Hanger, Rail, and Eyebolt. For all LB components go to <u>longboardproducts.com</u>.

Tools

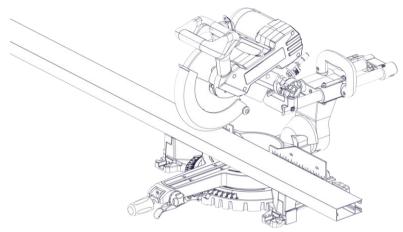

Commonly used tools for Dauntless install.

Cutting

Always be sure to wear appropriate PPE: eye & hearing protection.

Cut using a Miter Saw/Table Saw and trim the taped/drilled ends of all stock length material by at least 1/2" (12mm) each end and discard.

A DO NOT Install Dauntless Baffles without trimming the ends.

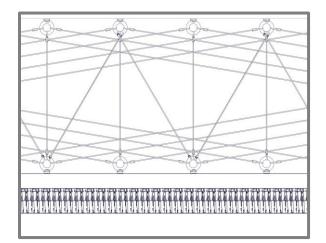

Fastening options

Longboard Dauntless system consists of Baffles attached to Rails which are hung from a structure above.

Typical fastening methods: (by others)

- Wire Attachment to anchors
- Threaded Rod to anchors
- Rails directly attached to the ceiling/structure
- Half Hanger Clip attached directly to the ceiling/structure

All fasteners should be compatible with the substrate type. Fasteners should be anchored into a solid secure framing member.

Half Hanger Clip fastened directly to ceiling or structure.

Half hanger clip is 1.5" from attachment to Ceiling Baffle.

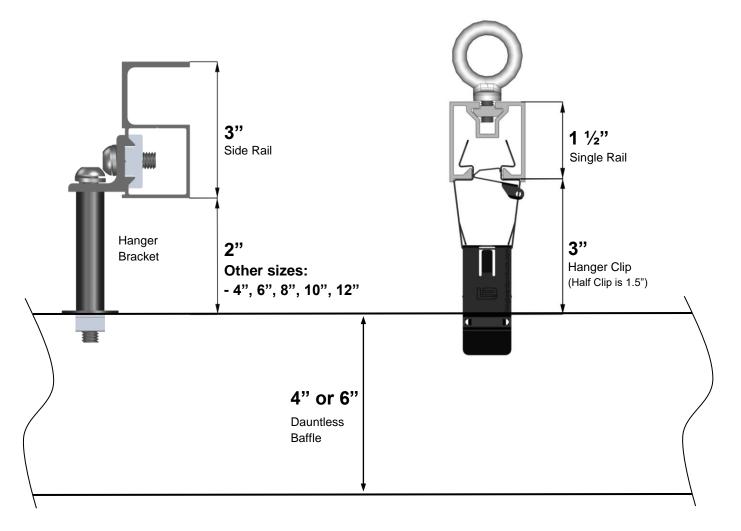

Install details

Typical dimensions and drop depths

Baffle	Width	Depth	Length	Weight(lbs/LF)
4"	4" (101.6mm)	1 5/8" (41.3mm)	12'/24'	1.2
6"	6" (152.4mm)	1 5/8" (41.3mm)	12'/24'	1.6

Carrier Rail	Width	Depth	Length	Weight(Ibs/LF)
Single Rail	1.5" (38mm)	1 5/8" (41.3mm)	12'/24'	0.73
Side Rail	3" (76mm)	1 5/8" (41.3mm)	12'/24'	0.94

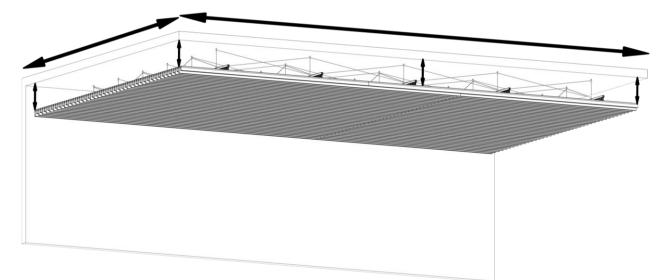

Note: Dimensions and weights are approx. and should be confirmed for precise measurements.

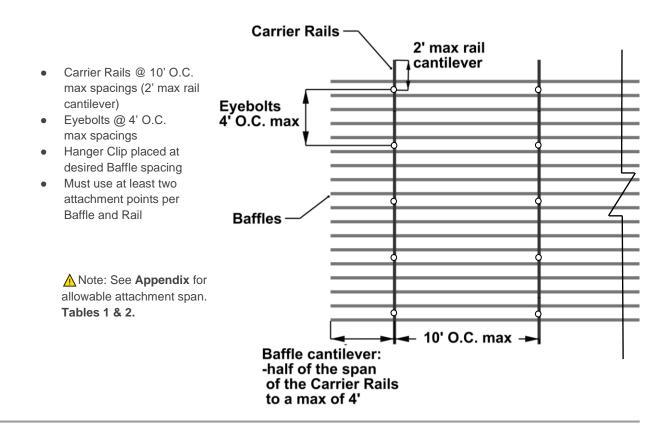

System layout

Typical layout

Measure and layout your ceiling system taking into consideration corners, bends and drop depths from ceiling. Make sure to mark and level out the drop depth of the Rails so they line up with the install of the Dauntless Baffles.

Dauntless Interior Ceiling System Installation Guide

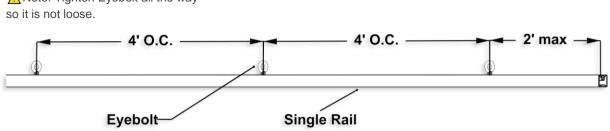

Single Rail-

Install Hanger Clip system

Measure and cut Rails for the required area. Measure and install Eyebolts every 4' O.C. max with a 2' max cantilever. Slide the Eyebolt and T-Nut onto each Rail and tighten the Eyebolt once in position.

▲ Note: Tighten Eyebolt all the way

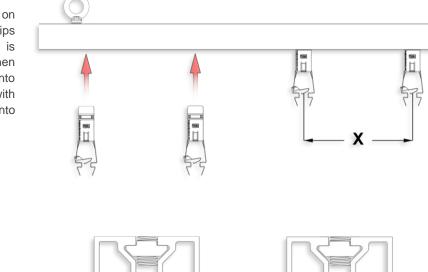

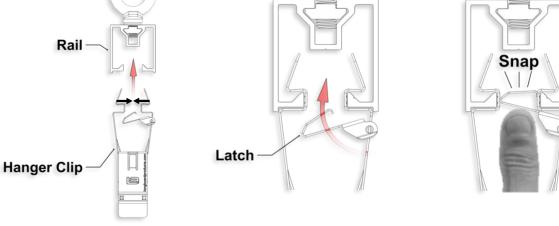

Eyebolt

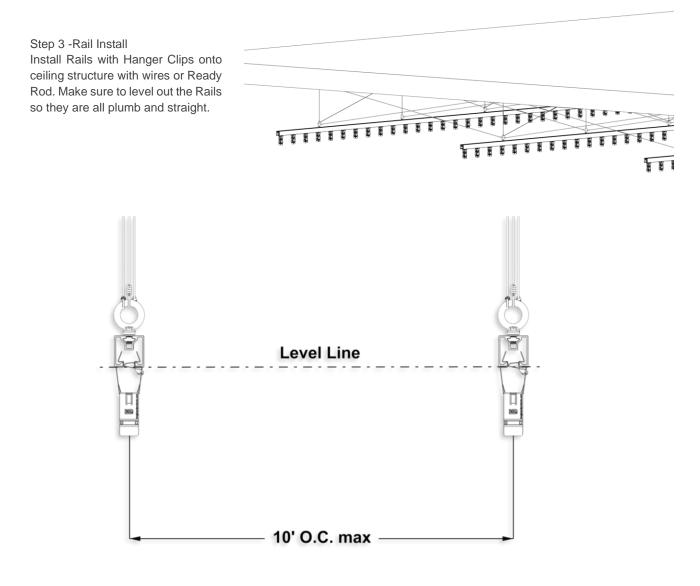

T-Nut

Step 2 -Hanger Clip Install Measure desired Baffle spacings on the Rail (X) and install Hanger Clips as shown. The Hanger Clip is designed with a Latch that when pressed locks the Hanger Clip into place. Using thumb, press with pressure to snap the Latch into place. See images for details.

▲ Note: The Hanger Clip is universal so it can be installed either end into the Rail or Baffle.

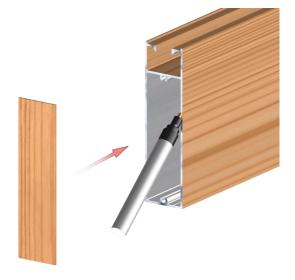

Note: See **Appendix** for allowable attachment span. **Tables 1 & 2.**

Step 4 -Baffle Preparation Measure and cut Baffles for the required area.

Use a Paint Pen on the cut ends and install End Caps. End Caps are friction fit and if needed can be installed with a Rubber Mallet to protect the finish.

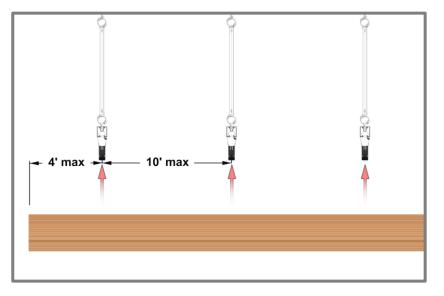

Step 5 -Baffle Install

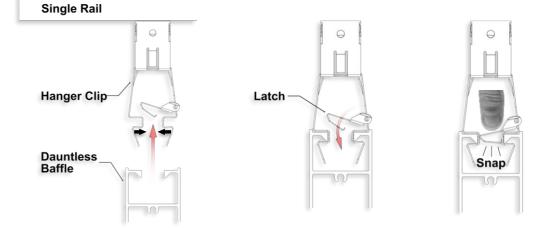

Lift Baffles into place onto the Hanger Clips previously installed on the Rails.

Using the Latch, snap the Baffle into place for every hanger Clip along the length. Make sure to check that Baffles are level, plumb and straight.

▲ Note: Make sure every Hanger Clip is attached and snapped onto the Baffle.

Repeat Steps 4 & 5 for the rest of the Baffles.

Dauntless Interior Ceiling System Installation Guide

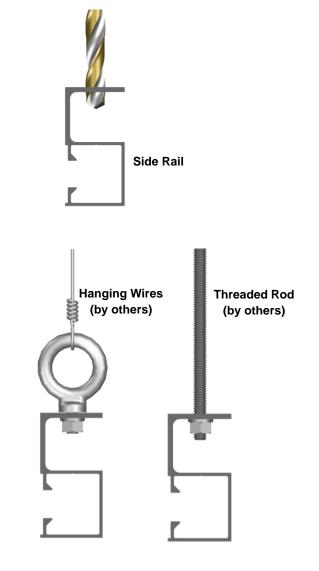

Install Hanger Bracket system

Step 1 -Pre-drill Side Rails Measure and cut Rails for the required area. Measure and drill holes for wire or threaded rod attachment every 4' O.C. max with a 2' max rail cantilever.

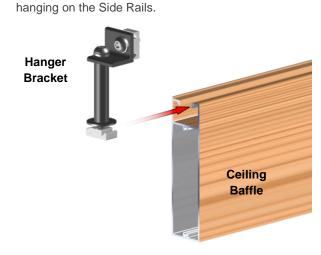

Install Rails with Hanger Brackets onto ceiling structure with wires or Ready Rod. Make sure to level out the Rails so they are all plumb and

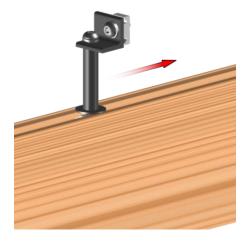

Step 2 -Rail Install

straight.

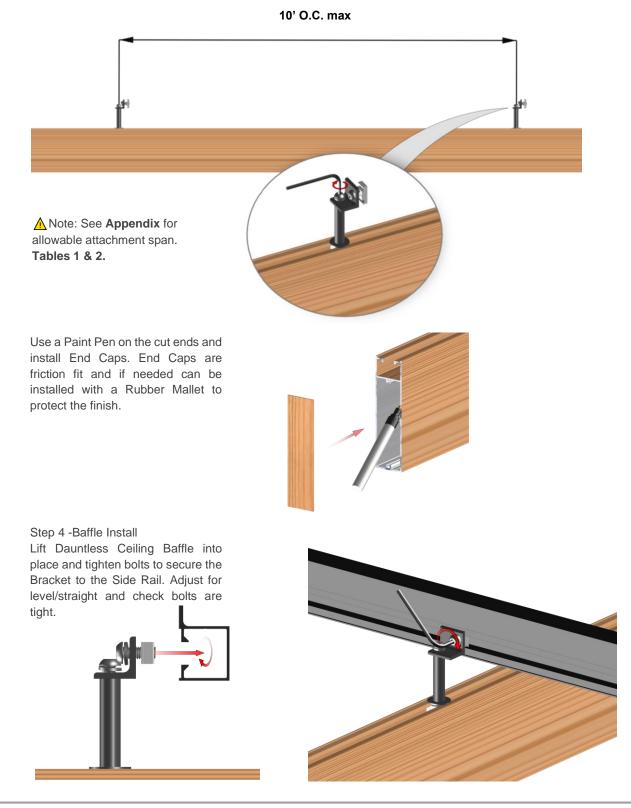

Step 3 -Beam Preparation Measure and cut Baffles for the required area. Install Hanger Brackets and slide them to the desired attachment spacing for

Tighten Hanger Bracket bolts (hand tight) at the measured location using 7/32" Allen Key (by others).

Details

Butt-Joints using spline connector

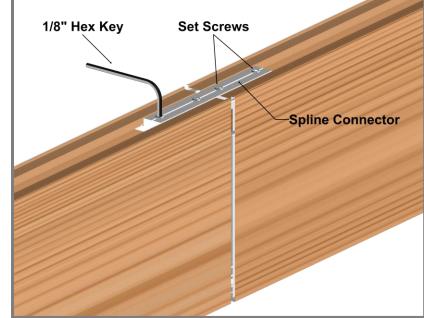

Spline Connectors are used to connect Dauntless Baffles together to achieve a seamless look for linear runs greater than 24'.

A 1/8" Hex Key is used (by others) to tighten the Set Screws once in the desired position.

Spline Connector and Set Screws are purchased separately.

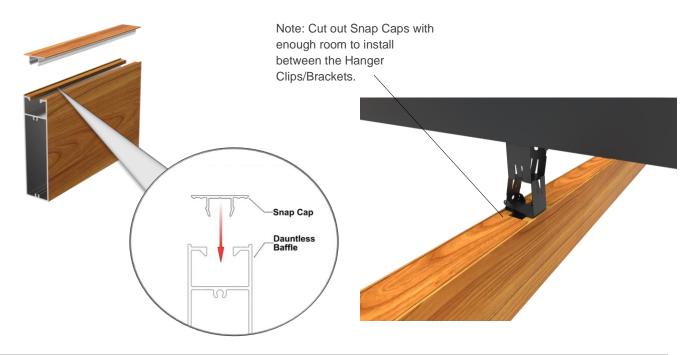

Spline Connector with Set Screws

Snap Cap Install (For line-of-sight aesthetics if required)

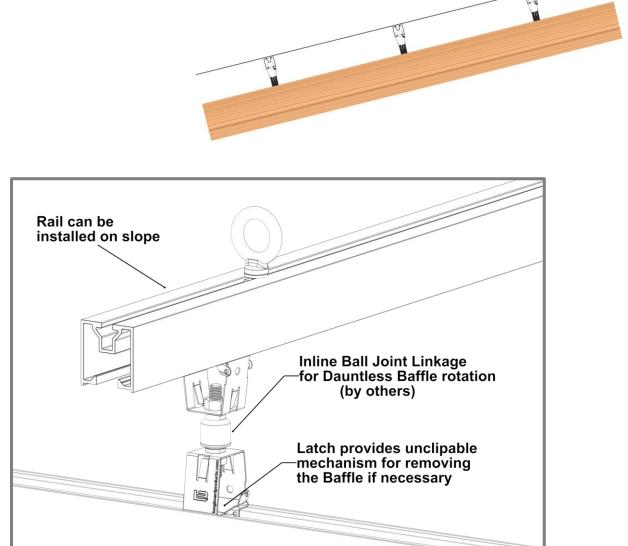

Ceiling Baffle Snap Cap is installed to finish the top of the Baffle. Snap Caps are friction fit and if needed can be installed with a Rubber Mallet to protect the finish.

Angled orientation options

Dauntless Hanger Clips and Brackets can be installed on angled ceilings directly mounted to substrate. Depending on the variations in ceiling angles and degrees of slope, Longboard recommends support through specific project-based analysis.

Install option for rotational axis.

Appendix

Allowable attachment span -Load Tables

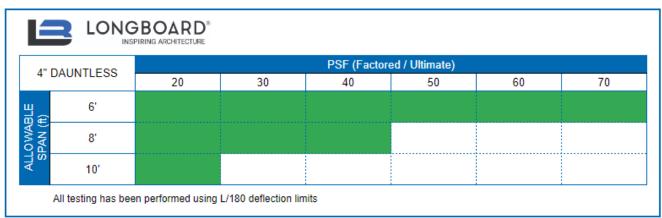

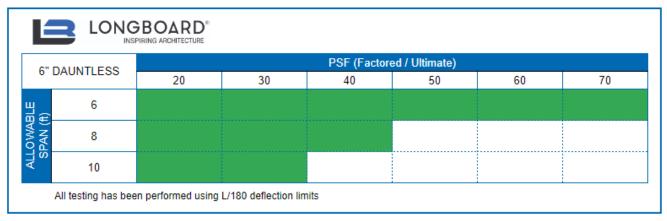

TABLE 1

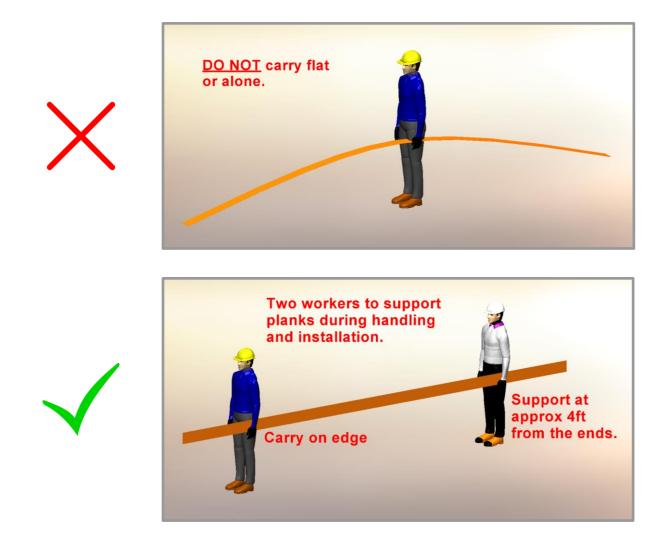

TABLE 2

Proper Handling of Longboard Products

To help avoid injury and product damage, Longboard products require proper handling to and from storage areas during installation. When carrying or installing any products it is recommended that they be moved or carried by at least two people with each support point approximately 4ft from the ends. Carrying products without proper support can cause excessive bending which may damage the appearance or finish of the product. Any short cut lengths should also be carried on edge while supporting the material. See below for details.

A Delivery, Storage & Handling

- Always inspect the delivery for damage and contact LB ASAP if there are any issues: <u>info@longboardproducts.com</u> or 1-800-604-0343 and include your PO# and any pictures if possible. Longboard is not responsible for the installation of blemished or damaged material.
- Be sure to store the material flat, keep it dry, safe & secure and remain in unopened cartons until ready to be installed.
- Always wear appropriate PPE when handling products.

Print, Screens, and our pictures do not accurately reflect aspects of our finishes - textures, sheen, woodgrain hues, etc. Always order a physical sample before purchase! Our Color Bars swatches and samples will provide an accurate representation.

If a custom finish is required, we will work with our industry leading coating suppliers to develop a custom finish solution. All finishes are rigorously tested for corrosion and weathering resistance to ensure that it will stand up and deliver superior performance in the built environment.

We perform accelerated weathering testing in our onsite laboratory and work closely with coating suppliers to review weathering results of finishes undergoing natural Florida exposure testing. Our disciplined approach to powder coating, quality and process control distinguishes it as industry leading product manufacturer and ensures that its premium products stay looking beautiful for many, many years.

NATIONAL WARRANTY

(Canada & USA only)

15 Year Non-Prorated Powder Coating Finish - 50 Year Non-Prorated Extruded Aluminum Profiles [Limited Warranty]

Warranty granted to (building owner):	Product codes: Product description:		Install contractor
			Project name
			Project address
Longboard Architectural Products Inc. ("Longboard," "The Company") products as identified by the Product Codes		Address 2	Install start date
listed will conform to the standards set out in Clause 1 and Clause 2 of this Warranty, subject to the terms and conditions set out in Clause 3 and 4 of this Warranty.	Finish:	Date of s	substantial completion

This Pinnacle Warranty is only valid for applications within Canada and USA. All applications outside of Canada and USA are required to contact Longboard for assistance.

Clause 1

Extruded Aluminum Profile(s) with Powder Coat Finish Longboard expressly warrants that its product line is free from manufacturing defects in material or workmanship.

- 1.1 When product is applied according to Longboard instructions and properly maintained, such product is guaranteed against the following:
- 1.2 Buckling: The product itself will be free of any buckling that is not blocking: the product itseri will be free of any blocking that is not associated with the substrate and/or structure to which the Longboard system is attached. For the purpose of this warranty, buckling shall be defined as warping of the product(s) exceeding one sixteenth of an inch out of plane per linear foot. Corrosion: When installed in normal atmospheric conditions according to Longboard instructions and properly maintained,
- 1.3
- 1.4
- according to Longboard instructions and properly maintained, such product is further guaranteed against rusting and corroding. Subject to the limitations set out in Clause 3 and 4. What we will do: 1f, during the fifteen (15) year Limited Warranty Period on the powder coating finish, the Product is defective in material or workmanship, Longboard will, in its sole discretion, either repair or replace the defective portion of the Product. What we will do: 1f, during the fifty (50) year Limited Warranty Period on the extruded aluminum profiles, the Product is defective in material or workmanship, Longboard will, in its sole discretion, either repair or replace the defective portion of the Product. After the 15th year. this Limited Warranty on the powder. 1.5
- 1.6
- After the 15th year, this Limited Warranty on the powder coated finish will expire and shall no longer be applicable. After the 50th year, this Limited Warranty on the aluminum extruded profile(s) will expire and shall no longer be applicable. 1.7
- Longboard replacement of the defective Product or reimbursement of this Limited Warranty is the exclusive 1.8 remedy for the Covered Person for any defect in materials or workmanship. The Company will pay for all reasonable costs including material and labor as it relates to the repair and/or replacement of the defective Product.

Product Finish - AAMA 2604 Performance Specification

- During the first fifteen (15) years of this warranty: Checking/Cracking: No visible checking or cracking of the 2.2
- halking Resistance: No chalking of the product finish on the 2.3
- building in excess of that represented by No.8 rating based on ASTM D4214.
- on ASTM D4214. Color Retention: No color change of the product finish on the building greater than 5 (five) CIE Lab \triangle E units calculated in accordance with ASTM 2244 Section 6.3. Color change shall be measured on the exposed paint surface which has been cleaned of oil, grease, chalk, oxidized film or 2.4 other contaminants, corresponding values shall be measured on the control panel.
- Gloss Retention: Coated surface will exhibit gloss retention of a 2.5 minimum of 30% of the original. Gloss retention shall be measured on the exposed paint surface which has been cleaned

of oll, grease, chalk, oxidized film or other contaminants, corresponding values shall be measured on the control panel. Adhesion: Adhesion of product finish when initially applied to test panels and measured by reference to AAMA 2604-02 Clause 7.4.2 will show no removal of the film. 2.6

Clause 3

- Warranty Terms and Conditions: 3.1
- The "Warranty Period" for the warranties in Clause 1 shall mean the respective number of years or for as long as the Covered Person commencing on the date of substantial completion named above shall live and own the property on which the material was originally installed. 3.2
- 3.3 Registration of the product is required within ninety (90) days from substantial completion for the warranty to be in effect. This warranty is valid for the original owner and one other subsequent owner of the structure where the product(s) have been installed
- Normal atmospheric conditions exclude corrosive or aggressive atmospheres such as those contaminated with 3.4 chemical fumes or other corrosive elements. The product finish is not meant for marine use on boats, ships or offshore platforms. The product finish warranties as outlined in Clause 2 shall
- 3.5 include coverage of the finish as it relates to the impact effects from hail and woodpecker birds. Under no circumstance shall Longboard's liability under this limited
- 3.6 warranty exceed 2.5 times the total corresponding Longboard material cost (excluding sales tax, labor and installation related costs) as noted on the original purchase invoice and paid by the Buver for the specific project.
