

LONGBOARD®
INSPIRING ARCHITECTURE

NATIONAL BRANDS

Transform your brand's identity with our premium Aluminum Cladding Systems. Choose an innovative solution that seamlessly blends aesthetics, durability, and sustainability. As a renowned leader in architectural solutions, we offer international brands a unique opportunity to elevate their structures, making a lasting impression while meeting the highest industry standards.

Accelerate Your Growth

Expediate your project with lightning-fast 30-day lead times! At Longboard, our streamlined production process ensures quick turnaround, allowing international brands to meet tight project deadlines. The entire manufacturing process - from log to plank - is done on North American soil.

Smart Spending, Powerful Results

We offer competitive pricing without compromising on quality, providing international brands with excellent value for money. Our dedicated National Brands manager ensures that you get the best pricing; orders can be placed direct or through a local dealer.

Minimal Maintenance, Maximum Longevity

Our systems boast long-term durability with minimal maintenance, resulting in substantial savings over the lifetime of the project. Benefit from products that are non-combustible, pest resistant, and protected from moisture. They do not require caulking or adhesive during installation and can be installed anytime of the year.

Backed By The Pinnacle Warranty

Our transparent warranty terms demonstrate this commitment to quality and customer satisfaction, offering international brands peace of mind for their long-term investments. You will find that the Pinnacle Warranty covers material and labor in the event of any unlikely product defect/failure.

Prolific Profiles

Choose from a plethora of stunning exterior cladding, soffits, and screens or interior ceilings, walls, and partitions. Whether you're looking for planks, panels, battens, louvers, or beams, we have a product that will elevate your brand.

Eco-Friendly Innovation

Embrace sustainability with our recyclable aluminum solutions.

- 100% Recyclable Aluminum: Choose sustainability without compromising quality.
- Hydroelectric Manufacturing Process: Our green approach ensures responsible production.
- VOC and LBC Red List free: Breathe easy with products that prioritize indoor air quality.
- LEED Credits: Join us in building a greener future, one project at a time.
