

LONGBOARD®
INSPIRING ARCHITECTURE

THE LONGBOARD ADVANTAGE

When your project demands the perfect balance of aesthetic excellence, durability, and long-term performance, Longboard delivers. Our premium aluminum architectural products combine innovative engineering with uncompromising quality, backed by our pinnacle warranty and comprehensive support. From concept to completion, we're your trusted partner in creating buildings that stand the test of time.

Complete Manufacturing Control

Proudly North American ISO 9001 certified production facility that transforms raw aluminum into fully finished products with complete control over every stage of the process, ensuring quality & consistency.

Peace of Mind Warranty

Our unmatched, non-pro rated comprehensive 15 & 20 year Pinnacle Warranty includes removal and reinstallation in the event of a product manufacturing defect or failure. It covers all materials, labor, and support costs, delivering total coverage & complete confidence.

Reliable Lead Times

Manufactured entirely in North America, our vertically integrated production model ensures consistent lead times & responsive service. By controlling every stage of the process, from extrusion to finishing, we minimize delays, reduce supply chain risk, and deliver products on schedule to meet the demands of your project timeline.

3 x Performance

Crafted from high strength, corrosion resistant aluminum delivering long-term performance in demanding environments. Our use of Class 2.5 powder delivers three times the durability, fade resistance, & long-term performance over the industry standard class 1 powder. With 50+ standard finishes, we offer lasting beauty, protection, & design flexibility.

Industry-Leading Panel Lengths

Reduce installation complexity with our extended 24 foot length capabilities to help you achieve cleaner sight lines, faster installation, and reduced labor costs.

TESTING & SAFETY

Feature	What it means for you
Mechanical seals (no caulking required)	Competitive installation costs with regular contractors
ASTM E84 / E136 - achieves Class A fire ratings	Highest safety rating available
Rear ventilated rain-screen (BV/D) capability	Protects your building from moisture & mold ingress
ICC-ESR	Code compliance of building products, materials & systems
Miami-Dade Notice of Acceptance	Longboard is rated for hurricane force winds
ISO 9001:2015	Consistent quality assurance and process control
ISO 14001:2015	Environmental responsibility and sustainability commitment
ASTM C423-17	Sound absorption performance verified for interior systems
LEED v4.1 Credits	Green building certification support
VOC Free	Indoor air quality and health safety
Environmental Product Declarations (EPD)	A standardized, third party verified document that transparently reports the environmental impact of a product throughout its life cycle.
Declare Label	To promote healthy, safe, and environmentally responsible materials in the built environment.

MANUFACTURING PROCESS

Feature	What it means to you
Available in lengths up to 24 feet	Reduced labor costs and faster installation
AAMA 2604/2605 certified powder coating	Superior coating performance
Lightweight construction	Faster project completion and reduced complexity
Vertically integrated manufacturing from extrusion to packaging	Warranty confidence backed by proven performance
VOC-free formulation	Healthier indoor environment
6063 Extruded Aluminum Alloy	Crisp, clean lines with no oil canning or warping

SERVICE & SUPPORT

Feature	What it means to you
Technical Design Support	Material estimates, shop drawings & free shipping
Design Assist	Custom solutions and enhanced project outcomes
Custom Color Matching	Perfect aesthetic integration with any design vision
Pinnacle Warranty	Complete protection and long-term confidence
Wide range building envelope systems	Design freedom to achieve your architectural vision
Custom extrusions and finishes available	Your vision brought to life with customized support along the way

Manufactured In-House
We own the entire production process

Extensive Finish Range
50+ Colors & Textures for every Vision

Guaranteed to Perform
Industry unmatched warranty

Certified by the Experts
ISO 9001 & ISO 14001

Extensive Trim Options
Traditional, Craftsman & Precision

Up to 24ft Lengths
Faster Installation, Reduced Labor

100% Extruded Aluminum
Low Maintenance

Custom Color Matching
For any Design Vision

Green Build Compliance
Leed Certification Support

VOC Free
Healthier Indoor Environment
